

🎉 **Skyzone Variant.** Play using the Skyzone rules, but with all the colors, for 2 to 4 players.

◆ Instead of playing with colors, we play with shapes (**triangles, squares, circles**)! **Instead of colors, each zone of adjacent cards with the same shape is worth the value of the highest card in that zone.**

✗ **Removal.** As soon as **3** cards of the

same value touch each other (still not diagonally), they are **immediately discarded**. Place them in the discard pile in the order you prefer.
