

 **Skyzone Variant.** Play using the Skyzone rules, but with all the cards, for 2 to 4 players, and with a single discard pile instead of two.

◆ Instead of playing with colors, we play with shapes (**triangles, squares, circles**)! Instead of colors, each zone of adjacent cards with the same shape is worth the value of the **highest card** in that zone.

**✗ Removal.** As soon as **2 cards of the same value touch each other** (still not diagonally), they are **immediately discarded**. Place them in the discard pile in the order you prefer.
