

THE GHOST PRESIDENT

 **Setup.** Deal the cards including a dummy player. Their cards are discarded. The player with the **yellow 10** starts.

 **Goal.** Be the first to get rid of all your cards.

 **How to play.** On your turn, you can:

- **Play a set** of identical cards (singleton, pair, triple...). If there's already a set on the table, you must play the same number of cards with a **higher or equal value**.
- **Pass.** You can't play again until the cycle ends.

 **Jokers** can replace any card in a set.

 The cycle ends if:

- All other players pass.
- A set of 12s is played.
- A set matching the previous one (same value, at least 2 cards, no jokers) is played.

The last player to play starts the next cycle.

 **You can't end the game with a set of 12s** — if you do, you lose.
