

 **Sup Variant.** 2 teams of 1 to 3 players. Follow the rules of Sup with some modifications.

 Players take turns, alternating between teams.

 **First step of your turn.** Play in one of the opposing team's area.

 **Second step.** Play another card in your area, or **in a teammate's area by paying 1 token** (each player starts with 1 token, you can use Rule cards as tokens). If you skip this step and discard a 10, 11, or 12, **you earn a token!**

End of the game. When an area has 4 rows of different colors, the current round finishes normally and the other players each take **one final turn**. During this final turn, players from the same team can **exchange** cards from their hands and discuss strategies (token exchanges are not allowed).

Another variant. You can play with 4 colors instead of 5. The end condition remains the same: 4 different colors are needed in an area.
